## Summary

Front-End Developer with expertise in React, JavaScript, and modern UI frameworks. Skilled at crafting responsive, user-centered interfaces with clean, efficient code. Known for strong logical thinking, adaptability, and the ability to learn new technologies quickly. Passionate about delivering reliable, maintainable software and contributing to collaborative, high-performing teams. Currently expanding backend knowledge in Node.js to build a full-stack skillset.

## Experience

---

### Web Developer — Iraqi Businessmen's Union (IBMU)

(Sep 2024 – Present)

- Designed and developed the Union's official bilingual website (Arabic/English) from scratch using React, Tailwind CSS, and Firebase, serving over 14,000 business members across Iraq.
- Built a fully responsive, secure platform hosted on a local Iraqi server with a national domain.
- Managed UI/UX design, testing, and deployment independently, ensuring a stable and visually consistent experience.
- Collaborated with stakeholders to align the website's goals with the Union's communication strategy.

### Front-End Developer — Digital Logic Projects

(Jan 2024 – Jun 2024)

#### Certificates Generator Dashboard:

- Built the front-end architecture from scratch using Vue.js and Vuetify, collaborating with backend developer.
- Supported bulk certificate generation (7,000+ at once) through Excel upload or manual entry.
- Implemented customizable templates and role-based access for administrators.
- Delivered and tested a fully functional deployed version, ensuring performance and scalability.

#### Tashgeel Platform:

- Contributed to a multilingual employment platform using Vue.js and Vuexy, creating interfaces for profiles, posts, jobs, and chats.
- Designed responsive Arabic/English layouts with dark mode support.
- Maintained front-end progress independently after team transition.

### Freelance Front-End Developer

(2023 – Present)

- Developed a management dashboard for car showrooms, enabling account-based access for monthly or annual plans.
- Integrated modules for employee, car, user, and contract management using React and Tailwind CSS.
- Delivered fully responsive layouts and optimized workflows for business clients.

## Trainer & Assistant — Aon

(2023 – 2024)

- Supported front-end training sessions in React, HTML, and CSS.
- Assisted both regular and special-needs learners, simplifying concepts and providing personalized guidance.
- Selected as a lead trainer for a new group based on performance and communication excellence.

## Education

### Microverse — Full-Stack Web Development Program

(Sep 2022 – Jun 2023)

Intensive full-time remote program covering React, JavaScript, Ruby on Rails, HTML, and CSS. Collaborated globally using Agile, pair programming, and code reviews.

### Aon — Front-End Development Course

(Oct 2024 – Dec 2024)

In-person training in React.js, HTML5, CSS3, and modern UI/UX practices. Completed practical projects emphasizing responsive design and Git workflow.

## Technical Skills
